

TB7 Series

- Trapezoidal Profile
- .080 Pitch
- Maximum Speed 20,000 RPM
- Minimum Pulley Diameter .25" (10 Teeth)

TB20 Series

- Trapezoidal Profile
- 1/5 Pitch .200 Circular Pitch
- Maximum Speed 10,000 RPM

Operating Notes:

Timing Belts also known as Synchronous Belts are basically a flat belt with evenly spaced or pitched teeth. These teeth when matched with the grooves in the pulleys provide a positive no-slip engagement. These belts will not stretch and require no lubrication.
